**SUMMARY OF THE REASONS FOR DECISION:**

The publication entitled *Leaving Las Vegas* is classified as:

Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.

The publication is a DVD version of the video recording of the same title classified by the Office of Film and Literature Classification as objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years, with the descriptive note 'Contains violence and sex scenes.' This decision was registered on 28<sup>th</sup> February 1996.

The DVD contains the feature, two notices and three additional components. These components are a short featurette (which is a brief documentary about the main feature), a theatrical trailer for the feature and brief biographies of the two leading actors. There is also a scene selection facility. However, these additional components do not affect the classification given to the video recording.
